Memo: Domestic banks <sup>2</sup>														
Worldwide offices (consolidated)														

<sup>1</sup>For foreign banks and banks with parents in CBS reporting countries, F plus Q does not sum to U because F is reported by a larger sample of banks; for the latest quarter, immediate counterparty data are reported by banks in 31 countries and guarantor basis data by banks in 26. For parents in individual CBS reporting countries, F plus Q may not sum to U because of rounding differences or inconsistencies in the underlying data reported by banks. <sup>2</sup> Positions on the country where the controlling parent is located, ie on residents of banks' home country. Available only for countries that are CBS reporting countries.
